ANNEXURES.

REMARKS A.—The following rights to water courses and right to the existing artificial diversions of jungle stream and spring water and maintenance thereof are admitted within the Panikere reserved forest, Kasaragod taluk:—

A-1.—On behalf of Kukala Chindan Nayar, son of Uchire Amma, agriculturist, Paniyal village, for the time being, the perennial combined right to (1) the existing artificial diversion of the jungle stream which begins from about a chain's distance east of the resurvey stone at the junction of F lines 787 and 208 of resurvey No.

29/2, the diverted course, about 10 links wide, running north to south and cutting F line 787 of resurvey No. 29/2 at a distance of about 4 chains and 20 links from the resurvey stone at the junction of F lines 787 and 208 of resurvey No. 29/2; the diversion is bunded and stone-reveted on right side of the stream, the bund with stone revetment being about 8 links in height and 10 links broad and is meant mainly to protect resurvey Nos. 29/1 and 2 during heavy rains; (2) the maintenance of the existing artificial diversions; (3) the use of the water flowing along the artificial diversion for the irrigation of resurvey No. 29/2 and 3, subject to the following conditions:—(a) Access to the artificial diversion shall be by resurvey No. 29/2 and along the stone reveted bund; (b) no further artificial diversion of the stream course nor any other interference with the stream course or width thereof will be allowed without the express permission, in writing, previously obtained, of the District Forest Officer, South Mangalore; (c) the stone-reveted bund shall be kept in good order and no alterations in the existing dimensions thereof will be allowed without permission similarly obtained; (d) materials for the repair of the stone-reveted bund should be obtained from the margin alongside the bund and from the margin of the stream on the side opposite the bund.

Infringement of any of these conditions may result in the disallowance of the further exercise of the right.

A. II.—On behalf of Kukala Chindan Nayar, son of Uchire Amma, agriculturist, Paniyal village, for the time being, the perennial right to maintain and use for domestic purposes in resurvey No. 29/2 and for irrigation purposes in resurvey No. 29/1 the water of the kanni 5 links wide and 2 links deep which flows in a north-westerly direction for a distance of about 6 chains and 30 links and enters resurvey No. 29 at a distance of about 50 links north of stone at the junction of F lines 208 and 206 of resurvey No. 29/2 subject to the following conditions:—(a) Access to the kanni shall be by its bed and its margins; (b) no artificial diversions of its course will be allowed without the express permission in writing of the District Forest Officer, South Mangalore, previously obtained; (c) the kanni should not be reveted, widened or deepened or in any other way interfered without permission similarly obtained; (d) materials for the repair of the kanni should be obtained from its margin.

Infringement of any of these conditions may result in the disallowance of the further exercise of the right.

A. III.—On behalf of Kodoth Chathu Nayar, son of Naranthatte Chathu Nayar, agriculturist, Panathady village, for the time being, the perennial right to maintain and use for the irrigation of resurvey No. 28/2 the water of the kanni 6 links broad and varying in depth from one to ten links, which enters the reserve on its southern boundary at a point 15 links east of the resurvey stone at the junction of F lines 132 and 328 of resurvey No. 65, runs north-west for a distance of about 22 chains with intermediate aqueduct of laterite 25 links by 5 links and enters resurvey No. 28/2 (which it mainly irrigates) at the north-east corner of the same field, subject to the following conditions:—(a) Access to the kanni shall be by resurvey No. 28/2, from 15 links east of resurvey stone at the junction of F lines 132 and 328 of resurvey No. 65 and by margins of the kanni; (b) no artificial diversion of the kanni course will be allowed without the express permission, in writing, previously obtained, of the District Forest Officer, South Mangalore; (c) the kanni should not be reveted, widened or deepened or in any other way interfered with, without permission similarly obtained; (d) materials for the repair of the kanni should be obtained from its margins; (e) no alterations in the dimensions of the laterite aqueduct will be allowed without the express permission, in writing, previously obtained, of the District Forest Officer, South Mangalore.

Infringement of any of these conditions may result in the disallowance of the further exercise of the right.

A. IV.—On behalf of the cultivator or cultivators, for the time being, of Manjankan wet lands, the perennial right to maintain and use for the irrigation of these wet fields, the water of the kanni 5 links in width and 2 links deep, which takes off from Adakanchal stream at a point 50 links west of resurvey stone at the junction of F lines 279 and 541 of resurvey No. 374 (across which a dam has been put up), runs westwards for a distance of about 10 chains and parallel to Adakanchal stream and leaves the forest at about 360 links distance from the resurvey stone at the south-east corner of resurvey No. 41, subject to the following conditions:—(a) Access to the Kannu shall be by its bed and margins and by Adakanchal stream; (b) no artificial diversion of its course will be allowed without the express permission, in writing, of the District Forest Officer, South Mangalore, previously obtained; (c) the kanni should not be reveted, widened or deepened, or in any other way interfered with, without permission

similarly obtained; (d) materials for the repair of the kanni should be obtained from its margins.

Infringement of any of these conditions may result in the disallowance of the further exercise of the right.

A. V.—On behalf of the cultivator or cultivators, for the time being, of Adagam wet lands, the perennial right to maintain and use for the irrigation of these wet fields the water of the kanni 5 links in width and 2 links deep, which branches from Nagachikole stream at a point about 50 links north of the resurvey stone at the junction of F lines 181 and 224 of resurvey No. 2, runs west for about 50 links and then leaves the reserve at a point 5 links south-west of the resurvey stone referred to subject to the following conditions:—(a) Access to the kanni shall be by its bed and its margins; (b) no artificial diversion of its course will be allowed without the express permission, in writing, previously obtained, of the District Forest Officer, South Mangalore; (c) the kanni should not be reveted, widened or deepened, or in any other way interfered with, without permission, similarly obtained; (d) materials for the repair of the kanni should be obtained from its margins.

Infringement of any of these conditions may result in the disallowance of the further exercise of the right.

A. VI.—On behalf of the cultivator or cultivators, for the time being, of Puthiakudi wet lands, the perennial right to maintain and use for the irrigation of these wet fields the water of the kanni 5 links wide and 2 links deep which branches from Nagachikole stream at a point 80 links north-east of the resurvey stone at the junction of F lines 224 and 180 of resurvey No. 2, runs east for a distance of 370 links and leaves the forest at a point 398 links from the resurvey stone referred to, subject to the following conditions:—(a) Access to the kanni shall be by its bed and margins; (b) no artificial diversion of the course of the kanni will be allowed without the express permission, in writing, of the District Forest Officer, South Mangalore, previously obtained; (c) the kanni should not be reveted, widened or deepened, or in any other way interfered with, without permission, similarly obtained; (d) materials for the repair of the kanni should be obtained from its margins.

Infringement of any of these conditions may result in the disallowance of the further exercise of the right.

A. VII.—On behalf of Kukala Chindan Nayar, son of Uchiro Amma, agriculturist, Panisal village, for the time being, (1) the perennial combined right to (i) the existing artificial diversion of spring water from Payacheri-Vadakai mula, about 4 links wide and 2 links deep beginning from about 46 links north of stone at the junction of F lines 206 and 433 of resurvey No. 29 and running parallel to F line 433 of resurvey No. 29/1 and 2 to a point about 46 links north of the north-west corner point of resurvey No. 29/1, thence it runs south cutting F line 340 of resurvey No. 29 at a point 20 links west of the same corner point; the diversion, the total length of which within the reserved forest is 530 links, being meant to protect resurvey No. 29/1 during heavy rains; (2) the maintenance of the existing artificial diversion, subject to the following conditions:—(a) Access to the artificial diversion shall be by the kanni noted under (ii) below, by the sides of the artificial diversion and from the north-western corner point of resurvey No. 29/1; (b) no further artificial diversion of the spring water course nor any other interference with the course or width or depth thereof will be allowed without the express permission, in writing, of the District Forest Officer, South Mangalore, previously obtained; (c) materials for the repair of the artificial diversion should be obtained from the margins thereof.

Infringement of any of these conditions may result in the disallowance of the further exercise of the right.

(ii) The further right to construct and the perennial right to maintain and use the water for the irrigation of resurvey No. 29/1 of a kanni carrying the diverted spring water from Payacheri-Vadakai mula from about 46 links north of stone at the junction of F lines 206 and 433 of resurvey No. 29 and running to north-east corner of resurvey No. 29/1, that is, 115 links west of stone at the junction of F lines 206 and 433 of resurvey No. 29 with additional right to construct and the perennial right to maintain a laterite stone-reveted water storage pit, 15 links in length, 5 links in width and 9 links in depth from about 46 links north of stone at the junction of F lines 206 and 433 of resurvey No. 29, the kanni thereafter, that is, up to the point 115 links west of stone at the junction of F lines 206 and 433 of resurvey No. 29, being 5 links wide and 2 links deep subject to the following conditions:— (a) Access to the kanni and storage pit shall be by resurvey No. 29/1 and by the sides of the kanni; (b) no artificial diversion of the course of the kanni proper will be allowed without the express permission, in writing, previously obtained, of the District Forest Officer, South Mangalore; (c) no alterations in the divisions of the storage pit will be allowed without permission similarly obtained; (d) the storage pit shall be kept in proper order; (e) materials for

the repair of the storage pit should be obtained from its margins; (f) the kanni proper should not be stone-reveted, widened or deepened or in any other way interfered with without the express permission in writing of the District Forest Officer, South Mangalore; previously obtained; (g) materials for the repair of the kanni proper should be obtained from its margins.

Infringement of any of these conditions may result in the disallowance of the further exercise of the rights.

REMARKS B.—The following public rights of way are admitted within the Painikere reserve forest; Kasaragod taluk:—

B-I.—The Kolimulla to Adagam foot-path, for men and cattle, 45 links wide.—It enters the forest on its northern boundary at a point 5 links south of the resurvey stone at the junction of F lines 426 and 422 of resurvey No. 374, runs in an easterly and northerly direction, for 15½ chains and leaves the forest at a point 2½ chains east of the south-west corner of resurvey No. 41.

B-II.—The Adagam to Mundote foot-path, for men and cattle, 45 links wide.—It enters the forest on its eastern boundary at a point 10 links east of the resurvey stone at the junction of F lines 321 and 595 of resurvey Nos. 207 and 25 respectively, runs in a south-easterly direction for a distance of 30 chains and leaves the forest on the same boundary at a point 1 link west of the north-east corner of resurvey No. 122/1.

B. III.—The Chullikere to Vazhavalapu cart-track, 50 links wide, open to men, cattle and carts.—It enters the forest on its southern boundary at a point 25 links east of the resurvey stone at the junction of F lines 237 and 557 of resurvey No. 375, runs in a north-westerly direction for a distance of 17 chains and leaves the forest on its western boundary at the resurvey stone at the junction of F lines 232 of resurvey No. 375 and 283 of resurvey No. 53.

No. 23.—Under section 16 of the Madras Forest Act (V of 1882), the Governor in Council is pleased to declare that the area the boundaries of which are described in the schedule below shall be constituted a 'reserved forest' with effect from 1st April 1932.

SCHEDULE.

No. 15.—The following draft of an amendment to the Madras Factories (Amended) Rules, 1923, published with Development Department Notification No. 246, dated 28th August 1923, at pages 992 to 1007 of Part I of the Fort St. George Gazette, dated 11th September 1923, as subsequently amended which the Governor in Council proposes to make in exercise of the powers conferred by clause (ii) of sub-section (2) of section 37 of the Indian Factories Act, 1911 (XII of 1911), is hereby published as required by sub-section (1) of section 39 of the said Act for general information.

Notice is hereby given that the draft will be taken into consideration on or after the 15th April 1932 and that any objection or suggestion which may be received from any person with respect thereto before the date aforesaid will be considered by the Governor in Council. Objections and suggestions should be addressed to the Governor in Council through the Commissioner of Labour.

DRAFT AMENDMENT.

After rule 32 of the said rules, the following heading and rules shall be inserted, namely:—

Precautions against fire.

[Section 37 (2) (ii).]

32-A. No building forming part of a factory or used as a store room in connexion therewith shall have a thatched roof or walls.

32 B. Every room in which more than 200 persons are employed shall be provided with an automatic sprinkler.

32-C. There shall be provided in every factory in readily accessible places

(1) four fire buckets filled with dry sand for the first 1,000 square feet of floor area and one additional fire bucket filled with dry sand for every additional 500 square feet of floor area or part thereof; or

(2) one 2-gallon fire extinguisher for the first 5,000 square feet of floor area and one additional 2-gallon fire extinguisher for every additional 5,000 square feet of floor area or part thereof.

32-D. Oil, petrol or other highly inflammable material shall not be kept in any part of the factory building but shall be stored in an outhouse or godown detached therefrom.

32-E. The manager of every factory shall cause to be exhibited a notice, in English and in the chief vernacular of the locality, prohibiting smoking or the use of naked lights or both, at every place in the factory where in his opinion or in the opinion of the Inspector, such smoking or use of naked lights or both, as the case may be, would be dangerous. The manager shall take all reasonable precautions to ensure the due observance of this rule.
